Interpretation of terms used in this guide, in particular "Visitor" and "Wristband" are the same as in the policies published on the Organizer's website (<https://szigetfestival.com/en/policy-gctc>) (especially "*General contract terms and conditions of Sziget Cultural Management*", "*Sziget Festival Visitor Policy*", "*Terms of Use of the Sziget Account*" and the "*General Data protection regulation*", "*Privacy Policy concerning participation at the Day of Bródy Songs, Sziget Icons Day and Sziget Festival*") and in the privacy policy published on the website <https://djoti.com> ("*Privacy Policy concerning participation at the DJ OTI und die Freunde event carried out by Sziget Zrt. on August 8, 2026*") and their interpretation.

By accepting the Card or the entry wristband and the Payment Chip placed on it, the Visitor accepts the relevant provisions of the Organizer as compulsory to himself/herself. The Card and the Festipay Payment Chip placed on the wristband are specific cash substitute payment instruments issued by the Organizer that allows the Holder the purchase of goods or services only from a closed-loop system of service providers directly contracted by Organizer in the areas used by the Organizer for the purpose of the Festival. Organizer unilaterally has the right to prescribe the Payments Chips as means of payment at the Festival, on an exclusive or non-exclusive basis. The Card is an RFID card for contactless payments. Wristbands are equipped with RFID Payment Chips for contactless payments. The Card and the Payment Chip are not bank cards, the Card and the Payment Chip are cash substitute payment

instruments. (Hereinafter referred to as “wristband” or a “Payment Chip”, also referring to as “cash substitute payment instrument”, meaning the Payment Chip.)

The amount uploaded to the Card may be used at all Events, the amount uploaded to the Payment Chip may only be used on Sziget Icons Day and during the Festival, in commercial units operating at the event venues provided by the Organizer during the duration of the given Festival. If Visitor purchases more than one daily ticket (in case of Sziget Icons Day and the Festival), Visitor will receive a new wristband for each daily ticket, and therefore another Payment Chip. In such cases, the former wristband, not entitling to participate the Event anymore, may be still used as Payment Chip with no regard to the valid wristband.

Card and Payment Chip Expiration: 12.00 August 16, 2026

The remaining balance of the Card and/or the Payment Chip of the wristband assigned to any day ticket or pass can therefore be refunded at the latest by the date specified above.

The RFID Payment Chip built into the Card and the wristband is valid from receipt and can be used after top-up. If the balance that was topped up at a Top Up Point remains on the Card or the Payment Chip and is not refunded by the Visitor at the given Event or until the date indicated in the “Card and Payment Chip Expiration” section, the remaining balance will be lost and cannot be transferred to the Organizer's additional festivals.

2. REQUESTING CARD, WRISTBAND, PAYMENT CHIP, REGISTRATION

The Visitor can request a Festipay card personally upon arrival to the Festival, at the Festipay card top up point. The Festipay card is valid from takeover, it can be used following its has been topped up. The Festipay card can be taken over against a deposit of 500 HUF, which is given back in case of undamaged return of the card. Disabling lost or damaged Festipay card may only be requested by a registered user. Registration can be done in the Festipay mobile application, available either as an Android or iOS application, by using the 4 digit PIN code received at the activation of the Festipay card.

After leaving the Top-up Point, the Organizer will NOT accept any complaints!

The Card and the Payment Chip can be used for purchases in the amounts covered by the topped-up balance. The balance of the Card and the Payment Chip may be refilled at any time until the end of the given Events but may not exceed HUF 400,000.

4. CREDITING OF THE DEPOSIT RETURN FEE OF THE REDEEMABLE REUSABLE CUP APPLIED AT THE DAY OF BRÓDY SONGS, SZIGET ICONS DAY AND THE FESTIVAL

It is possible to credit the deposit return fee of the redeemable reusable cup to the balance of the Card or the Payment Chip as written in the Visitor Policy of the Festival. In case of the Concert, the reusable cups are not redeemable, so those written here shall not apply.

The deposit return fee credited to the Card shall not be deemed as a top-up, however, after crediting, it shall be considered equivalent to the balance topped up at the Top-up Points at the Festival, including but not limited to those written in Point 8 [REDEMPTION OR REPAYMENT OF BALANCES THAT WERE TOPPED-UP AT TOP-UP POINTS OF THE FESTIVAL].

The deposit return fee credited to the balance of the Payment Chip shall not be deemed as a top-up, however, after crediting, it shall be considered equivalent to the balance topped up at the Top-up Points at the Festival, including but not limited to those written in Point 8 [REDEMPTION OR REPAYMENT OF BALANCES THAT WERE TOPPED-UP AT TOP-UP POINTS OF THE FESTIVAL] and Point 10 [REDEMPTION OR REPAYMENT AND REFUND IF ON-SITE TOP-UP AND TOP-UP THROUGH THE FESTIVAL ACCOUNT HAS ALSO OCCURED].

5. PAYMENT WITH THE CARD AND THE PAYMENT CHIP

Purchases can be made at merchants using payment terminals. A terminal consists of two parts:

- (i) a card reader with a display that is fixed to the counter in a clearly visible manner for the wristband holder, and
- (ii) a POS terminal located on the counter of the Merchant, not necessarily visible to the Visitor.

Purchase process:

- (i) the total amount of the purchase is entered into the cash register by the Merchants and the amount is entered into the POS terminal;
- (ii) after the purchase amount is entered, the amount of purchase is displayed on the display of the reader, and, if the Visitor accepts the sum displayed, the Visitor touches the Card or the wristband to the reader so that the FRID chip built in the Card or the Payment Chip contacts the reader and thus the transaction takes place;
- (iii) the balance of the Card and the Payment Chip is debited with the purchase amount. In case of the Payment Chi, if the Visitor has made top-ups through multiple channels (in the Festival Account and on-site), the system will first reduce his/her balance topped up on-site (in cash or by credit card);
- (iv) the new balance appears on the card reader's / wristband reader's display. If the transaction has inadvertently contained an erroneous amount or has to be cancelled for any reason, the payment Terminal is able to do so. The cancellation of the transaction is only possible at the terminal on which the transaction was made and only if this was the last transaction of both the Card / Payment Chip and the Terminal. Cancellation is not possible in any other case. It is possible to give a tip by using the system, in such case, an amount higher than the actual purchase amount will be charged. We kindly ask Visitors to double-check the amount displayed in such cases. If the Organizer resolved to let adding tips, the Visitor, after pushing the "Yes" button below the question "Do you wish to add tip?" on the appropriate display (customer-side screen), can choose between 0%, 5%, 10%, 15% or 20% amounts or may determine individual amounts as tips. In an event the Visitor is not willing to tip, further to choosing 0% it is also possible to opt for "Finalization of the order". The payment transaction may be finalized in any case by contacting the bank card or the Card / Payment Chip to the card reader / wristband reader. The merchant gives a receipt for the purchase. If the Visitor returns or disputes the purchase price of the purchased product, the terms and conditions of the return will be determined jointly by the merchant and the buyer in accordance with applicable law.

6. CHECKING THE BALANCE

The Card / Payment Chip balance can be queried at Merchants accepting the Card and the Payment Chip, Top-up Points and Top-up Machines. The Card balance can be queried in the Festipay applications and the Payment Chip balance can be also queried in the Festival Account provided that the Visitor has carried out the registration as written in section 2 above. The Visitor accepts the database and statements of Festipay Zrt. in relation to the balance of the Card. In doing so, if the Visitor

In case of the Card the decision of Festipay Zrt. and in case of the Payment Chip the decision of the Organizer is final.

In the case described in Section 7.2 herein, Festipay Zrt. shall record the proceedings described above in a written protocol for the Card, and the Organizer shall do so for the Payment Chip, and shall provide a copy of such protocol to the Visitor.

8. REDEMPTION OR REPAYMENT OF BALANCES THAT WERE TOPPED-UP AT TOP-UP POINTS OF THE EVENTS

Any unspent amount of the Card and the Payment Chip, that were topped-up at Top up Points in the area of the Events in cash or by credit card, can be, upon the choice of the Visitor, redeemed in cash or repaid to a bankcard (transaction for the repayment of the remaining balance) at the Top-up Points. Refund transactions can only be processed using a Payment Chip; this option is not available for Cards. The refund will be fulfilled to the bank account belonging to the bank card used for the top-up. If, the bank card has been blocked, the automatic refund cannot be fulfilled. In an event of this, the complaints division of OTP Bank Nyrt. shall fulfil the refund, which may take more than 30 (thirty) days. **The balance uploaded through the Festival Account cannot be repaid in cash or by bank transfer.** If by the upload the balance of the Festival Account has been charged, the not used balance will be refunded to the Festival Account.
